Product Description

On the 80 pages of this book you will find everything you need for an adventure in a Hong Kong characterised by "High Tech & Low Life". From the set-up of a cyberpunk movie to the introduction of possible roles with skills and advantages to a selection of typical equipment, weapons, cyberware and drones. This setting description is rounded off with a chapter on a possible cyberpunk Hong Kong of the future and the corporations and gangs to be found in it.

Cyberpunk - a dystopian future characterised by technological progress and the collapse of all democratic and social systems. Only money rules the world and with it the corporations that have that money. The individual human being is only a number in the balance sheets. The players - all mercenaries in the corporate struggle for more power - do not appear on any of these balance sheets, because their missions are secret, dirty, dangerous... and bring a lot of money.

The unofficial cyberpunk setting for New Hong Kong Story contains:

- the 80-page setting volume in 25x19 cm format
- the game plan of a warehouse divided into two hand-drawn A3 plans
- a bookmark in cyberpunk look
- a character sheet in cyberpunk look

Caution! Not suitable for children under 36 months.
