### Product Description

The floor model is a recreation of the F4U-1A variant fighter aircraft. The F4U-1A drew on the experience of Navy and US Marine Corps pilots with the original aircraft and made modifications based on their knowledge and suggestions. For example, the performance of this fighter was to be further improved. One of the most important optimisations was the removal of the so-called "birdcage" cockpit, as it impaired visibility. Instead of the old roof, a semi-bubble canopy with a minimal frame was used. The TAMIYA model kit version impresses with its high accuracy of fit as well as the attention to detail. Attention! Not suitable for children under 14 years.

- Recommended age: 14 years and up- Scale: 1:32- Wingspan: 390 mm- Length: 318 mm- Contents: Kit model, instructions, 1 figure, decals, movable flaps and elevator- The high-quality kit from TAMIYA must be assembled independently.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included in the plastic kit.
