Product Description

The floor model is a 1:35 scale replica of the German heavy tank destroyer named Elefant. In 1941, Porsche created a prototype tank with radical features such as a petrol-electric hybrid drive train. In 1943, the tank was converted into a Ferdinand tank destroyer equipped with an 8.8 cm PaK 43 L / 71 gun in a large box-shaped superstructure. In 1944, 50 surviving Ferdinands received modifications, including a machine gun and a commander's cupola, and were christened Elefant. The Elefants fought battles on the Italian and Russian fronts and some fought until the end of World War II during the Battle of Berlin. Caution! Not suitable for children under 3 years. Choking hazard due to small parts.
