from **92,29 EUR**

shipping weight: 0.10 kg Manufacturer: Carrera

Product Description

Start your off-road adventure with the Carrera Profi RC Red Bull Peugeot WRX208, Hansen. The licensed model looks almost exactly like the infamous racing car that skilfully roars through the muddy bends and hilly tracks of the world's rally circuits. Thanks to its high-quality technical equipment, the Carrera Profi RC Red Bull Peugeot WRX208 is perfectly equipped for racing at home on any surface, just like the big prototype.

Four-wheel drive, metal gearbox, oil-pressure shock absorbers and suspension ensure special driving comfort off-road and are robust enough to withstand even wild driving. Thanks to the splash water protection, the race goes on at up to 50 km/h even through puddles and snowdrifts. The long-lasting LiFePo4 battery supplies the vehicle with power for up to 15 minutes before it needs to be recharged via the included USB charging cable.
