370503024 - 2.4 GHz Mini MarioCopter, RC, from 8 years old

from 42,40 EUR

Item no.: 363957
shipping weight: 0.70 kg
Manufacturer: Carrera

Product Description

"It's-a-me - Mario!" As the new family member in the Carrera RC Nintendo Mario Kart™ heroes, the Mini Mario Copter whizzes through the skies. Measuring just 16.5 x 16.5cm, the quadcopter with a rotor diameter of 5.5cm is "Ready to Fly" and equipped with 2.4 GHz Digital Proportional technology. Thanks to special functions such as the beginner advanced mode, auto take-off and landing function as well as the automatic altitude control, even young pilots can take off with the small high-flyer without any problems. Thanks to the extra-sturdy Rotor Protection Cage, the Mini Mario copter is optimally protected during its flight of up to 7 minutes. "Mamma mia!" Flying fun is guaranteed here! Caution. Not suitable for children under 36 months.
