Product Description

This version of the TT-02 chassis includes the prototypical Ford Mustang GT body. The original was inspired by the Ford Shelby GT350R-C and developed this GT4. The GT4 is powered by a 5.2L V8 engine with a 6-speed sequential transmission.

Required accessories:

- Remote control with receiver
- Steering servo
- 7.2V NiMH battery pack
- Charger
- Paint for Lexan body (TAMIYA PS-)

Information:

- 4WD kit model
- TT-02 chassis
- Elect. Speed controller
- 540 torque tuned motor
- Polycarbonate body with add-on parts
- Cardan drive
- Suspension struts
- Independent suspension
- Slick tyres
- Tub frame chassis
- Manual

Warnings

Before you start assembling, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Caution: Not suitable for children under 36 months.
