## 300058701 - RC Car,1:10 RC Opel Calibra V6 Cliff TT-01E

from **129,02 EUR**

Item no.: 369261  
shipping weight: 2.00 kg  
Manufacturer: TAMIYA

### Product Description

The Calibra V6 took part in the 1995 German Touring Car Championship (DTM). Run by the Joest Team and piloted by JJ.Lehto, the Calibra had a 2.5L V6 engine with 420hp. The Opel Calibra V6 "Cliff" is based on the proven TAMIYA TT-01E chassis with all-wheel drive. A large selection of tuning parts allows the model to be upgraded to a racing machine and is in no way inferior to the original.

Required accessories Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger, paint for polycarbonate body (TAMIYA PS-).

**WARNING!** Caution! Not suitable for children under 36 months. Before you start assembling, make sure you have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

#### Details
