from **432,17 EUR**

Item no.: 370987
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

Special Edition Mica Red

The TAMIYA MAN TGX 18.540 Mica Red is a special edition which is pre-painted with the TAMIYA colour TS-39 Mica Red and has an insensitive surface thanks to clear lacquer. The 458 mm long and around 3 kg heavy kit model can be used to put together impressive carriages. A powerful electric motor delivers its power to the rear axle via a shiftable 3-speed manual gearbox. Thanks to its high dead weight and a fifth wheel plate, the MAN TGX 18.540 can be coupled with numerous TAMIYA and CARSON-MODEL SPORT trailers. With the optionally available multifunction unit, almost all sound and light functions of the prototype can be simulated.

Warnings Before you start assembling, you should have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Caution: Not suitable for children under 36 months.
