Item no.: 369229  
shipping weight: 2.00 kg  
Manufacturer: TAMIYA

## Product Description

Rally models have fascinated the RC fan community for years. The Ford Escort MK.II is a classic on the scene and the TAMIYA kit is a faithful reproduction of the original. The Escort raced in the rally championship from 1975-1979. The TAMIYA MF-01X chassis has four-wheel drive and Rally Block tyres with good grip. Due to the independent suspension and the closed drive via a cardan shaft, this is the perfect basis for the Ford Escort and real rally feeling!

Required accessories Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger

Warnings Before you start assembling, make sure you have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Caution: Not suitable for children under 36 months.
