from **133,13 EUR**

Item no.: 369231
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

The Ford GT is a true supercar in its own right. This version of the 2020 Ford GT Mk II was reworked as a racetrack version, of which only 45 were built in the original. The original is powered by a 3.5l V8 engine with 700hp. The model from TAMIYA is based on the proven TT-02 chassis. The wheelbase, ground clearance, track and gear ratio can be adjusted in many ways and with the countless optional tuning parts the chassis can be quickly tuned into a racer. The 4WD drive with central shaft, double wishbones and spring struts on all four wheels ensure a prototypical driving image and best traction. The underside of the chassis is extra smooth and the battery compartment accommodates all common battery types. The visual highlight are the wheel drivers, which have attached dummy brake discs.

Required accessories Remote control with receiver, steering servo, 7.2V NiMH battery pack, battery charger.

WARNING! Caution! Not suitable for children under 36 months. Before starting to assemble, make sure you have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Details

- Scale: 1:10
- recommended age: from 14 years

technical details

- Kit model in scale 1:10
- length: 479 mm, width: 188 mm, height: 112 mm, wheelbase: 257 mm
- Beginner-friendly TT-02 chassis - extremely robust
- encapsulated 4WD all-wheel drive
- prototypical polycarbonate body incl. add-on parts (spoiler and mirrors), cut out
- double-spoke rims
- powerful 540 "Torque-Tuned" electric motor
- independent front and rear suspension
- electronic speed controller
- many tuning parts optionally available

Contents
