shipping weight: 2.80 kg
Manufacturer: TAMIYA

Product Description

Functional wonder!The tractor with a licence from the British manufacturer JCB impresses with numerous details and functions. Functions such as lights, horn and engine sound are controlled with the interference-free 2.4 GHz multi-channel remote control. Thanks to the non-slip tyres with true-to-the-original tread, you can also travel well outdoors with the yellow tractor. The trailer has to be coupled manually, but is powered by the tractor: you can raise and lower the loading area of the trailer via the transmitter! The tractor is fully equipped with remote control, transmitter batteries, driving battery, charger and instructions and is ready for use immediately after charging. Buy - Charge - Drive!

ATTENTION!Please keep these instructions for any correspondence. Colours and technical details are subject to change without notice. Not suitable for children under the age of three. There is a choking hazard due to small parts that may be swallowed! Use under direct adult supervision. Adult assistance is required to remove the transport locks.Please keep these instructions for any correspondence. Colours and technical specifications are subject to change without notice.
