from **138,08 EUR**

Item no.: 369208
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

TAMIYA now presents the legendary Renault Alpine in a distinctive Jägermeister version as an RC model on the M-06 M chassis. The Alpine A110 was a compact French sports car with a fibreglass body and rear-wheel drive. The Alpine was built from 1963 to 1977 and the A110 crowned this series in 1971 by winning the Rally Monte Carlo. In 1973 the A110 became Rally World Champion and this special Jägermeister version later raced in Germany. The TAMIYA model is based on the M-06 chassis with rear-wheel drive. It is powered by a 540 electric motor and numerous tuning parts are available for the model. The body is made of transparent polycarbonate and still needs to be painted.

Required accessories Remote control with receiver, steering servo, battery pack, charger, paint for bodywork

ATTENTION! Before you start assembling, make sure you have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.
