from **151,60 EUR**

Item no.: 370976
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

The Buggyra Racing Fat Fox Truck is another highlight in the TAMIYA racing truck range! The model is a replica of the 2018 Fat Fox from the European racing truck series, which was originally driven by 2017 champion Adam Lacko. The 1:14 scale kit model has a detailed, lightweight and impact-resistant polycarbonate body (multi-piece). It is powered by a TAMIYA TT-01 Type E on-road chassis (electric) with all-wheel drive and independent suspension. A large selection of tuning parts allows the model to be upgraded to a racing machine and is in no way inferior to the original.

Required accessories: Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger, paint for Lexan body (TAMIYA PS-)

Warnings: Caution! Not suitable for children under 36 months. Before starting to assemble, make sure you have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.
