from **435,72 EUR**

Item no.: 370997
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

The Scania R470 has been one of the most popular models in the TAMIYA truck range for years. Now this kit is also available with pre-painted cab parts in TS-17 silver/aluminium. The cab, F, H, K and M parts were painted in the factory. The chassis is the proven 2-axle frame chassis from TAMIYA with a 3-speed manual gearbox.

With the optionally available multi-function unit (56523 or 56511) almost all sound and light functions of the prototype can be deceptively simulated.

Required accessories-Min. 4 channel remote control - recommended Carson Reflex Stick 500501006 (6-channel), 500501003 (14-channel) or 500501004 (14-channel LCD display)- 7.2V NiMH battery pack, charger- steering servo + servo for gearbox- speed controller or TAMIYA multifunction unit MFC-03 300056523 for the driving, light and sound functions.

WARNING! The instructions should be read and understood in full with an adult. Keep away from small children. Do not allow children to put any parts or packaging material in their mouths. The model may have some sharp corners. Be aware of this when handling. Read the instructions included with the RC unit and keep them for future reference. If difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), observe and follow the instructions enclosed there. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.
