300058571 - RC Car, 1:10 RC Porsche 911 Carrera RSR TT-02

from **130,10 EUR**

Item no.: 369265
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

The TAMIYA Porsche 911 Carrera RSR on the TT-02 chassis is an easy-to-set-up RC model with all-wheel drive. Its powerful electric drive makes the approximately 41 cm long racing legend from 1973 a fun car. The kit model in scale 1:10 is based on the TT-02 chassis. The wheelbase, ground clearance, track and gear ratio can be adjusted in many ways and with the countless optional tuning parts, the chassis can be quickly tuned into a racer or converted for off-road use. The 4WD drive with central shaft, double wishbones and spring struts on all four wheels ensure a prototypical driving image and best traction. The underside of the chassis is extra smooth and the battery compartment accommodates all common battery types. The visual highlights are the wheel drivers, which have attached dummy brake discs. The robust polycarbonate body perfectly reproduces the dynamic shape of the Porsche 911 Carrera RSR and the decal sheet with the Martini racing design is finely reproduced to match.

Required accessories

- Batteries and charger, PS paint, RC system with servo
- PS paint (TS for ABS/PE bodies), battery pack & charger and RC system available separately
- Numerous optional tuning parts available

Warnings

Before you start assembling, make sure you have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions.

Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury.

If difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or specialist dealer.

Use tools only for their intended purpose. There is a risk of injury if used incorrectly.

If you use paints and/or glues (not included in the kit), observe and follow the instructions enclosed with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Caution: Not suitable for children under 36 months.

Technical details

- TT-02 tub frame chassis
- 4WD all-wheel drive
- Central drive shaft
- Bevel differential v/h with four bevel gears
- Double wishbones v/h
- Adjustable front track
- Independent suspension with friction dampers
- Electronic speed controller
- Electric motor type 540 with air cooling
- Motor mount compatible with electric motor type 380
- Battery compartment suitable for all battery types
- Gear ratio adjustable in 10 steps
- Robust and detailed polycarbonate body (unpainted)
- Separate injection moulded mirrors
- Slick tyres
- Decal sheet and painting aids (window masking film) included

Technical data

- Age recommendation: from 14 years
- Scale: 1:10
- Length: 457 mm
- Width: 204 mm
- Height: 136 mm
- Wheelbase: 251 mm
- Wheel width/diameter: (V/H) 27/67 mm - 32/67 mm

Contents

- 4WD kit model
- TT-02 Chassis
- Elect. Speed controller
- 540cc electric motor
- Polycarbonate body with add-on parts
- Cone diff. vo/hi
- Tub chassis
- Suspension struts
- Slick tyres
- Cardan drive
- Manual
