## RC Car, 1:10 RC Ford Escort Custom TT-02

from **125,00 EUR**

Item no.: 369227  
shipping weight: 2.00 kg  
Manufacturer: TAMIYA

### Product Description

The Ford Escort is a classic in the TAMIYA range. This reissue is a street-custom version of the original 58335 kit from 2004 (then WRC version). The original 1998 Ford Escort was powered by a 4 cylinder 2 litre engine with 500 hp. The 58691 TAMIYA 1/10th scale model is based on the TT-02 chassis. The wheelbase, ground clearance, track and gear ratio can be adjusted in many ways and with the countless optional tuning parts the chassis can be quickly tuned into a racer. The 4WD drive with central shaft, double wishbones and spring struts on all four wheels ensure a prototypical driving image and best traction. The underside of the chassis is extra smooth and the battery compartment accommodates all common battery types. The visual highlight are the wheel drivers, which have attached dummy brake discs.

Required accessories Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger, paint for polycarbonate body (TAMIYA PS-)

Safety notice Before you start assembling, make sure you have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads. Caution! Not suitable for children under 3 years. Choking hazard due to small parts.

Technical details- age recommendation: 14 years and up- scale 1:10- length: 425 mm, width: 189 mm, height: 145 mm, wheelbase: 257mm- beginner-friendly TT-02 chassis - extremely robust- encapsulated 4WD all-wheel drive- prototypical, unpainted polycarbonate body, 1.0mm- side mirrors and rear spoiler as separate add-on parts- Dish-Type rims with profiled tyres- powerful 540 "Torque-Tuned" electric motor- independent front and rear suspension- electronic speed controller- many tuning parts optionally available
