from **230,70 EUR**

Item no.: 369288  
shipping weight: 2.00 kg  
Manufacturer: TAMIYA

### Product Description

Tamiya presents the CC-02 chassis (Cross Country) now in the version with a classic Toyota Land Cruiser 40 body. The CC-02 chassis was modelled on the real off-road vehicles and has a frame chassis, cone differentials front and rear and a 4-link suspension. The rigid axle front and rear makes the model particularly off-road capable and the 4 CVA oil-pressure shock absorbers cushion every bump perfectly. The drive is provided by a powerful 540 engine mounted behind the front axle. This ensures good weight distribution when going off-road. Encapsulated to the engine is the gearbox, which transmits the power via movable cardan shafts to the front and rear axles. The body has the unmistakable design of the Land Cruiser 40 and is made of polycarbonate. In addition, Tamiya donated separate add-on parts and a new roof rack. Required accessories: Remote control with receiver, steering servo, battery pack, charger, TAMIYA PS paint for polycarbonate bodies. CAUTION! Before you start assembling, make sure you have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or specialist dealer. Use tools only for their intended purpose. There is a risk of injury if used incorrectly. If you use paints and/or glues (not included in the kit), observe and follow the instructions enclosed with them. Keep kit away from small children. Prevent children from putting any components in their mouths or from pulling plastic bags over their heads. - 1/10 scale kit model- Length: 390 mm, Width: 198 mm, Height: 237 mm, Wheelbase: 252 mm (M-wheelbase)- Prototypical polycarbonate body of the Toyota Land Cruiser- Body attachments made of (grill, mirrors, etc.- Roof rack made of PC-grade plastic. Roof rack made of PC-ABS for a realistic off-road look- The chassis was modelled on real off-road vehicles and has a frame for extra stability- For 4WD drive, the engine sits behind the front axle with a separate gearbox. The engine's power is transmitted via central drive shafts to the differentials on the front and rear axles- 20 different reduction ratios can be set (11.09:1 to 29.28:1, various pinions available separately)- 4-link suspension with CVA oil-pressure shock absorbers- black ABS rims (6 mm offset) with off-road tyres- electronic speed controller included- numerous tuning parts available. Caution! Not suitable for children under 36 months. - 4WD kit model, CC-02 chassis, manual, elect. speed controller, polycarbonate body with add-on parts, 540 electric motor, oil pressure dampers, rigid axle vo/hi manually lockable, trailing arm suspension, ladder frame chassis, LED light unit, instructions- Age recommendation: 14 years and older
