300058630 - RC Car,1:10 RC Plasma Edge II 4WD TT-02B

from **129,00 EUR**

Item no.: 369263
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

The TAMIYA TT-02B chassis is a variant of the innovative TT-02 on-road 4WD chassis. The Plasma Edge II is the successor of the thousandfold popular Plasma Edge. Thanks to its simple construction and easy-to-maintain solutions, the chassis is also suitable for beginners. The battery is placed lengthways in the hull frame chassis and the low-slung RC components ensure a low centre of gravity. Independent suspension and double wishbones, oil pressure shock absorbers, all-wheel drive and the high-grip studded tyres provide excellent traction. Front and rear axles are equipped with sealed bevel gear differentials. The 540 RS Torque Tuned electric motor provides plenty of power off-road. With optional tuning parts, the chassis can be quickly tuned into a race buggy. The underside of the chassis has an extra-smooth design and the battery compartment accommodates all common battery types. The rugged polycarbonate body stands up to tough off-road conditions and is very lightweight.

WARNINGS: Before you start assembling, make sure you have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Not suitable for children under 36 months. Choking hazard due to small parts.

Technical details:

- Scale 1:48
- length 20,5 cm
- not pre-assembled
- 4WD kit model
- TT-02B tub frame chassis
- 540 torque tuned engine
- Elect. Speed controller
- Double wishbones v/h
- Oil pressure shocks
- Pin spiked tyres with good grip
- Cardan drive
- independent suspension
- Bevel differential v/h with four bevel gears
- Battery compartment suitable for all battery types
- Pin-spiked tyres
- Robust and detailed polycarbonate body (unpainted)
- Age recommendation: from 14 years

Scope of delivery:

- Kit on photo-etched parts
- many decals and decorations
- Step-by-step assembly instructions incl. pictures

Required accessories:

- Drive and transmitter batteries with charger
- PS paint
- RC system with servo

Attention: Additional tools, glue and paint may be required and are not included in the scope of delivery. These must be purchased as an option. The parts can be painted according to your own ideas.
