300058414 - RC Car, 1:10 RC Unimog 406 U900 CR-01

from **380,84 EUR**

Item no.: 369299
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

The second model on the TAMIYA CR-01 trials chassis has a finely detailed Unimog body, in the Mercedes-Benz 406 series U900 version, sitting on the lightweight aluminium ladder frame. The high ground clearance and twistable chassis provide the incredible off-road capability that trials require. The robust axle housing protects the most important drive components. TAMIYA's original body made of robust as well as lightweight polycarbonate features separately moulded add-on parts. A 2-channel radio control system and batteries are also required to complete the kit of the universal motor unit, or Unimog for short, for off-road use. - 1:10 RC kit of the Unimog- ladder frame made of robust and light aluminium profiles with plastic cross braces- chassis with high ground clearance- wheel suspension with spring struts- sturdy axle housing- internal shock absorbers are connected to the wheel suspension via push rods- additional stabiliser for ground grip in difficult terrain- centrally located gearbox with planetary gearbox, reduction ratio 40.5:1- electric motor type 540- front and rear gearbox with lockable differential gears- the tyres are bolted to the rim with beadlock rings, guaranteeing secure mounting needed for trials- newly developed trial tyres, 125 mm diameter and 56 mm tread width- body made of robust and lightweight polycarbonate- separately moulded add-on parts

Warnings: Before you start assembling, make sure you have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or specialist dealer. Use tools only for their intended purpose. There is a risk of injury if used incorrectly. If you use paints and/or glues (not included in the kit), observe and follow the instructions enclosed with them. Keep kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 36 months.
