

Item no.: 365652

Synthetic resin-based modeling paint, white, matt, RAL 9001, 14 ml

from **1,80 EUR**

Item no.: 365652
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix. This means that the paint can be applied not only with a brush but also with a spray gun.

Use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour is used

- on Tornados of the BW Navy for painting the undersides
- as underside paint for US aircraft in the Vietnam camouflage paint scheme
- as marking and identification paint for most military aircraft with dark camouflage paint

- White, matt
- 14 ml
- RAL 9001
