

Item no.: 365662

Synthetic resin-based modelling paint, orange glossy, RAL 2004, 14 ml

from **1,80 EUR**

Item no.: 365662
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists. All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This means that the paint can be applied not only with a brush but also with a spray gun. Use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun. This colour shade is used

- for markings for military aircraft
- as visual aids for military aircraft, especially at the US Alaska Air Command
- partly also on fighter planes of the 50s (application: wing tips, vertical stabilisers, horizontal stabilisers and rear fuselage sections)
- as exterior paint on remote-controlled aircraft of the USAF and US Navy

Caution! Not suitable for children under 36 months.
