

Item no.: 365699

Revell Enamel Colour Dark-Earth (RAF), matt, 14ml, synthetic resin-based model paint

from **1,80 EUR**

Item no.: 365699
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This means that the paint can be applied not only with a brush but also with a spray gun. As a cleaning agent, use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour is used as topside camouflage in combination with 32168 Dark Green (until August 1941).

Caution. Not suitable for children under 36 months.

- Dark-Earth (RAF), matt
- 14ml
