

Item no.: 365738

Revell enamel colour light grey, silk matt, 14ml, RAL 7025, synthetic resin-based modelling paint

from **1,80 EUR**

Item no.: 365738
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This way, the paint can be applied not only with a brush but also with a spray gun. As a cleaning agent, use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This paint is used

- as part of the Luftwaffe's new standard camouflage paint along with 378 Dark Grey, 67 Green Grey and 77 Dust Grey
- as surface camouflage colour of the new standard paint on US Navy aircraft (e.g. A-6E, EA-6A, F-18, F-14 etc.)

Caution! Not suitable for children under 36 months.

- Light grey, silk matt
- 14 ml
- RAL 7025
