

Item no.: 365689

Synthetic resin-based modelling paint, green-grey matt, RAL 7009, 14 ml

from **1,80 EUR**

Item no.: 365689
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This way, the paint can be applied not only with a brush but also with a spray gun. As a cleaning agent, use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour shade is used

- as the colour of the standard camouflage paint of the BW Air Force (e.g. Phantom II)
- as the colour of the standard camouflage paint of the naval Tornados, together with 77 dust grey
- as surface camouflage colour on Luftwaffe aircraft in World War II (RLM 82)

Caution! Not suitable for children under 36 months.
