

Item no.: 365696

Synthetic resin-based modeling paint, armour grey matt, RAL 7024, 14 ml

from **1,80 EUR**

Item no.: 365696
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This way, the paint can be applied not only with a brush but also with a spray gun. As a cleaning agent, use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour shade is used

- for interior painting, cockpit and cargo compartments on military and civil aircraft
- as surface camouflage paint in combination with 77 dust grey and 374 grey (undersides)
- as standard paint for fighter planes of the German Luftwaffe from approx. 1943 onwards

Caution! Not suitable for children under 36 months.
