

Item no.: 365697

Revell enamel colour blue-grey, matt, 14ml, RAL 7031, synthetic resin-based modeling paint

from **1,80 EUR**

Item no.: 365697
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This way, the paint can be applied not only with a brush but also with a spray gun. As a cleaning agent, use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour shade is used

- as top coat on the Mirage F.1 of the French Air Force
- for surface painting of US aircraft in WW2 in combination with green or brown

Caution. Not suitable for children under 36 months.

- Blue grey, matt
- 14 ml
- RAL 7031
