

Item no.: 365735

Synthetic resin-based modelling paint, dark green silk matt, RAL 6020, 14 ml

from **1,73 EUR**

Item no.: 365735
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists.

All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix.

This way, the paint can be applied not only with a brush but also with a spray gun. As a cleaning agent, use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour is used as surface camouflage paint for Royal Air Force aircraft in World War 2, mostly together with 381 Brown.

Caution! Not suitable for children under 8 years.
