Synthetic resin-based modeling paint, mouse grey, matt, RAL 7005, 14 ml

from **1,80 EUR**

Item no.: 365674
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

Revell Color is a synthetic resin enamel paint that does not attack the plastic surface of plastic models. However, many other materials can also be painted from the 14 ml paint can, which is popular with many hobbyists. All colours - except signal colour - can be mixed with each other and thinned with Revell Color Mix. This means that the paint can be applied not only with a brush but also with a spray gun.

Use Revell Painta Clean for the brushes and Revell Airbrush Clean for the spray gun.

This colour shade is used

- as a surface coat for French seaplanes
- as interior paint for French seaplanes as of September 1938
- Mouse grey, matt
- 14 ml
- RAL 7005
