300024355 - Model Kit, 1:24 McLaren Senna

from **47,16 EUR**

Item no.: 370770
shipping weight: 1.00 kg
Manufacturer: TAMIYA

Product Description

In 2018, the British car manufacturer McLaren announced a new super sports car: the McLaren Senna, named after the legendary racing driver Ayrton Senna. Only 500 units were produced worldwide. Now the 800 hp sports car is available as a model kit in 1:24 scale. The realistic representation of the car is made possible by a single monocoque part to which body parts are individually attached. The parts are designed to be assembled into blocks of the same colour, optimising the painting process. The twin-turbo V8 engine and visible sections of the complex environmental engineering are also faithfully reproduced. The McLaren Senna can be assembled as a European, US or Japanese version. Separate parts for brake calipers and discs ensure that the wheels (and brake discs) turn. Caution! Not suitable for children under 3 years. Choking hazard due to small parts.

- Scale 1:24- recommended age: 14 years and up- length: 198 mm- width: 91 mm- height: 60 mm- contents: road car, engine, instructions, decals- very detailed replica of the very low profile design of the McLaren Senna hypercar- single monocoque with separate add-on parts as in the original- the assemblies have been matched so that they can be painted together to make assembly as easy as possible.- prototypical V8 twin turbo engine, visible- can be built as EU, U.S. or Japanese version- wheels incl. brake discs are movable- cockpit display can be built as street version or racing version- metal transfer McLaren logos- glue, tools and paints are needed for assembly
