

Item no.: 363997

370800001 - Li-Io battery 7.4 V 700 mAH, RC, from 14 years of age

from **9,86 EUR**

Item no.: 363997
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

New energy for top performance Every battery reaches the end of its service life after a certain number of charging cycles. Then a replacement battery is needed. This lithium-ion battery operates at 7.4 V. When choosing the right charger, you should always pay attention to the voltage rating. The unit milliampere hours (mAH) represents the amount of charge that can flow through the device and the corresponding conductor within one hour. In the case of this rechargeable battery, this is 700 mA. When disposing of your used Li-ion battery, you should use the special boxes provided in electrical or DIY stores. Batteries are not disposed of in normal household waste. The disposal centres of local waste disposal companies also offer professional disposal. New power thanks to a new battery.

Details- Age recommendation: from 14 years Technical data- Voltage: 7.4 volts- Capacity: 700 mAH- Technology: lithium-ion
