## 300058568 - RC Car,1:10 RC Neo Scorcher TT-02B 4WD

from **122,57 EUR**

Item no.: 369257  
shipping weight: 2.00 kg  
Manufacturer: TAMIYA

### Product Description

The TAMIYA TT-02B chassis is a variant of the innovative TT-02 on-road 4WD chassis. The Neo Scorcher is the first model with this chassis configuration. Thanks to its simple construction and easy-to-maintain solutions, the chassis is also suitable for beginners. The battery placed longitudinally in the hull frame chassis and the low-sitting RC components ensure a low centre of gravity. Independent suspension and double wishbones, oil pressure shock absorbers, all-wheel drive and the high-grip studded tyres provide excellent traction. Front and rear axles are equipped with sealed bevel gear differentials. The 540 RS Torque Tuned electric motor provides plenty of power off-road. With optional tuning parts, the chassis can be quickly tuned into a race buggy. The underside of the chassis has an extra-smooth design and the battery compartment accommodates all common battery types. The tough polycarbonate body can withstand the rigours of off-road conditions and is very lightweight. Warnings Before you start assembling, make sure you have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age.

Details- Scale: 1:10- Age recommendation: 14 years and over Technical details- TT-02B tub frame chassis- 4WD all-wheel drive- central drive shaft- bevel differential v/h with four bevel gears- double wishbones v/h- independent suspension- oil-pressure shock absorbers- electronic speed controller- electric motor type 540RS Torque Tuned- battery compartment suitable for all battery types- robust and detailed polycarbonate body (unpainted)- pin-spiked tyres Technical data- length 380 mm- width 250 mm- height 145 mm- wheelbase 266 mm- Track v/h 217/208 mm- Tyre width v/h 32/41 mm- Tyre diameter 82 mm Contents- 4WD kit model- TT-02B chassis- Manual- 540 Torque-Tuned motor- Elect. Speed controller- Polycarbonate body- Oil pressure dampers- Pin spiked tyres with good grip- Cardan drive- Cone diff. vo/hi. Required accessories- Battery pack- Charger- PS paint (TS for ABS/PE bodies)- RC system with servo
