500907425 - Model kit, 1:14 2-axle tipping central trailer, from 14 years old

from 463,26 EUR

Item no.: 369389
shipping weight: 0.20 kg
Manufacturer: Carson

Product Description

The CARSON 2-axle tipping central trailer is the perfect addition for TAMIYA tractors. The kit reflects the prototype in detail. The body, which is made of hard PVC, can be painted individually. The frame of the tipping central trailer is made of steel (laser cut/CNC bent) and has an automatic 2-hook rear wall locking system. Some other features are the 8-ball bearing wheels, the Fulda Variotonn all-terrain wide tyres, the 7-chamber tail lights and the trailer axles with air suspension dummies. Optionally we recommend the towing hitch with the item number 50097182 for mounting on the TAMIYA rear tipper (300056357) or self-built vehicles. Attention! Not suitable for children under 14 years.

Technical details- Scale: 1:14- Recommended age: 14 years and older- Kit- Steel profile frame (laser-cut and welded)- Body made of hard PVC (grey)- Wheels with 8 ball bearings- Fulda Variotonn all-terrain wide tyres- 7-chamber tail lights- Trailer axles with air suspension dummies- Automatic 2-hook rear wall locking system Contents- Kit- Instructions
