510002667 - Model Kit,1:48 F-14A TOMCAT

from **21,47 EUR**

Item no.: 369942
shipping weight: 0.80 kg
Manufacturer: ITALERI

Product Description

The floor model is a recreation of the F-14A TOMCAT. The US Navys first super fighter, the F-14, was developed partly on the basis of experience with the F-111, a General Dynamics designed multi-role aircraft whose Navy version the F111B was built by Grumman. The F-14A first flew on 21 December 1970, and production line models reached the squadrons in 1973. The VF-1 and VF-2 squadrons accompanied the final voyage of the aircraft carrier Enterprise in Vietnam, but never saw combat. The Tomcat would not see action until 1981, when it shot down two Libyan Su-22s during an encounter over the Gulf of Sirte. Since then, the F-14 has been updated several times and has taken part in various conflicts in the Middle East (Iran-Iraq War, 1st and 2nd Gulf War) as well as operations over the former Yugoslavia and smaller engagements over the Mediterranean. Details- Scale: 1:48- Recommended age: 14 years and older Technical data- Length: 390 mm Information- The high-quality kit from Italeri must be assembled independently.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included in the plastic kit. These must be purchased as an option.
