Product Description

The floor model is a replica of the FIAT Abarth 695 SS Assetto Corsa. The "Nuova 500" was produced by Fiat from 1957 to 1975. It is a real icon on four wheels and one of the symbols of "Made in Italy". Its unique and recognisable design is known all over the world. When the small car was built by the Italian car manufacturer, its goal was simple: to bring a new compact car to the market at a very affordable price that would increase the number of potential customers. In 1964 Abarth, originally founded as a racing team, presented two interesting versions developed on the chassis and body of the Fiat Nuova 500: the 695 and the 695 SS. Both versions were equipped with a 689 cm3 engine and could reach the top speed of 140 km/h. In 1965, Abarth developed the Fiat 695 SS Assetto Corsa with improved performance and features.
