from **13,27 EUR**

Item no.: 369663
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

To protect the Empire's shipping routes, the British Navy built a large number of destroyers in the years before the Second World War. The nine ships of the so-called E-class, Exmouth, Echo, Eclipse, Electra, Encounter, Escapade, Escort, Esk and Express, were completed in 1934 and took part in many important operations during the Second World War, including the hunt for the Bismarck and the Battle of the Java Sea. The E-class was roughly the same size as its predecessors. However, the ships had enlarged superstructures and were also fitted with anti-submarine equipment and a minesweeper. The true-to-the-original TAMIYA 1:700 scale kit includes decals for all nine E-class ships. **Warnings** Before you start assembling, make sure you have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.
