from **111,23 EUR**

Item no.: 369244
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

TAMIYA presents the reissue of the Mercedes-Benz AMG CLK on the TT-02 chassis. The road base has a 4 litre V8 engine with 470hp. The racing car was revised again and got a new aerodynamic package and won the constructors' championship of the German Touring Car Masters in 2002. The 58722 TAMIYA model in scale 1:10 is based on the proven TT-02 chassis. The wheelbase, ground clearance, track and gear ratio can be adjusted in many ways and with the countless optional tuning parts the chassis can be quickly tuned into a racer. The 4WD drive with central shaft, double wishbones and spring struts on all four wheels ensure a prototypical driving image and best traction. The underside of the chassis is extra smooth and the battery compartment accommodates all common battery types. The visual highlight are the wheel hubs, which have attached dummy brake discs. The enclosed body is unpainted and can be painted with the TAMIYA polycarbonate colours. **ATTENTION!** Before you start assembling, you should have read and understood all instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Extra care should be taken to avoid injury. If any difficulties arise during assembly, ask an adult to supervise the work or a modeller with RC experience or a specialist dealer. Use tools only for their intended purpose. Incorrect use may result in injury. If you use paints and/or glues (not included in the kit), note and follow the instructions supplied with them. Keep kit away from small children. Prevent children from putting any components in their mouths or putting plastic bags over their heads.

Details- Scale: 1:10- Recommended age: 14 years and up Technical data- Length: 444mm- Width: 185mm- Height: 125mm- Wheelbase: 257mm Technical details- Beginner-friendly TT-02 chassis - extremely robust- Enclosed 4WD all-wheel drive- Prototypical, unpainted polycarbonate body- ABS add-on parts: Side mirrors and large rear wing- Spoked wheels with 26mm tyres- Independent front and rear suspension- Electronic speed controller- Many tuning parts optionally available Contents- 4WD kit model- TT-02 chassis- Elect.
