from **52,92 EUR**

Item no.: 370821
shipping weight: 1.00 kg
Manufacturer: ITALERI

Product Description

The Scania R Series articulated lorry, available with a V8 engine, was developed in response to the current demands of the international market. The V8 SCANIA engines have been designed to perform heavy-duty work and are highly appreciated for their robustness, manoeuvrability and performance. The R Series Scania has been developed to meet the highest requirements in terms of fuel economy and reliability, and the exterior design gives the vehicles a stately appearance in the field and they are considered number 1 for the realisation of the impressive "SHOW TRUCKS", the famous artistically painted trucks. The exceptional style on the outside is combined with new exclusive interiors that offer unique comfort for the driver and a wide choice of colours and materials. Our model is also completed by a beautiful sheet of decals and a sheet of original metallic stickers to give the lorry a proper finish. The pack also contains new parts made of chrome-plated plastic, which make the model look particularly realistic.

Details- Scale: 1:24- Age recommendation: from 14 years Technical data- Length: 247 mm Contents- Kit- Instructions- Decoration Information- The high-quality kit from Italeri must be assembled by the customer.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the scope of delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included with the plastic kit.
