510002822 - Model Kit,1:48 US F-22A Raptor

from **26,17 EUR**

Item no.: 370017
shipping weight: 0.80 kg
Manufacturer: ITALERI

Product Description

The Lockheed Martin-Boeing F-22 is a stealth-capable fifth-generation fighter aircraft used by the US Air Force. The "Raptor" has two turbofan engines with a Pratt & Whitney F119 afterburner that can generate vectoring thrust by moving the exhaust nozzles. Stealth capability is achieved through an extremely aerodynamic profile and the use of "high-tech" construction materials that minimise detectability by radar. Great attention has been paid to the design of the air intakes and outlets to reduce exhaust heat generation and noise emissions. The air-to-air and air-to-surface armament system is installed in the cargo bays in the fuselage to minimise reflections intercepted by radar. The avionics are extremely advanced and can detect, track and acquire targets at long ranges. **Caution!** Not suitable for children under 14 years.

Details- Scale: 1:48- Recommended age: 14 years and up
Contents- Kit- Instructions- Decals
Information- The high-quality kit from Italeri must be assembled independently.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included in the plastic kit. These must be purchased as an option.
