from **129,45 EUR**

Item no.: 369330
shipping weight: 0.50 kg
Manufacturer: ITALERI

Product Description

UPGRADE PROTAR FORMSThe Fiat 806 Grand Prix introduced significant innovations for its time. In fact, the Fiat 806 was the "progenitor" of modern Formula One racing cars. It was developed and produced by the Italian car manufacturer FIAT in 1927 and can be considered the first Grand Prix car ever built. Thanks to its 180 hp 12-cylinder engine, the Fiat 806 was capable of reaching and even exceeding a speed of 240 km/h. However, the most important innovations were made in the development of the chassis, the mechanics and the body. The engine and gearbox have been placed between the two chassis rods to optimise performance and handling. The Italeri model is unique and very detailed (over 400 parts need to be assembled). The bonnet can be opened to see the highly detailed engine. It has working steering, soft rubber tyres, photo-etched parts and small metal parts (screws, nuts, springs, etc.). **Caution!** Not suitable for children under 3 years. Choking hazard due to small parts.

Details- Scale: 1:12- Recommended age: 14 years- Engine bonnet can be opened- Functioning steering- Rubber tyres
Technical data- Length: 303 mm- Number of parts: 400+
Contents- Kit- Instructions- Decals
