from **119,52 EUR**

Item no.: 369206
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

TAMIYA presents the Alfa Romeo 155 V6 TI Martini, another touring car based on the TT-02 chassis. The 58606 TAMIYA 1:10 scale model is based on the proven TT-02 chassis. The wheelbase, ground clearance, track and gear ratio can be adjusted in many ways and the chassis can be quickly tuned into a racer with the countless optional tuning parts. The 4WD drive with central shaft, double wishbones and suspension struts on all four wheels ensure a true-to-life driving experience and optimum traction. The underside of the chassis has an extra smooth design and the battery compartment accommodates all standard battery types. A visual highlight are the wheel drivers, which have attached dummy brake discs. The enclosed body is unpainted and can be painted with TAMIYA polycarbonate paints. **ATTENTION** Before you start assembling the model, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. **Caution!** Not suitable for children under 3 years of age. Choking hazard due to small parts.

Details- Scale: 1:10- Age recommendation: from 14 years Required accessories- Remote control with receiver- Steering servo- 7.2V NiMH battery pack- charger- colour for polycarbonate body (TAMIYA PS-) technical data- length: 462mm- width: 185mm- height: 138mm- wheelbase: 257mm Special features- beginner-friendly TT-02 chassis - extremely robust- encapsulated 4WD all-wheel drive- prototypical, unpainted polycarbonate body- ABS add-on parts: Side mirrors and large rear wing- Spoke rims with 26mm tyres- Independent front and rear suspension- Electronic speed controller- Many optional tuning parts available Contents- 4WD kit model- TT-02 chassis- Electr.
