Product Description

Each player starts with the same cards. In addition, there is a selection of other cards that players can "buy" during the game. The players must move their characters along the path by selecting the cards they buy. An exciting strategy game begins, in which dragons mean power. So your aim is to get as many dragons as possible. To get dragons, players must first acquire gold to buy eggs. These can then be exchanged for dragons! Whoever gets their character with the dragons to the Iron Throne first will be crowned the winner.
