Product Description

Each player receives 5 cards. The player whose turn it is must discard a card in order to advance. When a player lands on a tile, various actions can be carried out. For example, Sauron may have to move forwards or attack an enemy. If the latter is the case, take an enemy card and see what it takes to defeat the enemy. When you have the right resources in your own cards, the enemy can be defeated. If not, Sauron moves forwards. To win, allplayers must reach Mount Doom before Sauron. If Sauron reaches the end before all players, he has won. So be quick!
