Product Description

The aim of the game is to move around the board and collect tokens under Helm's Deep that match the symbols on the Sauron army cards so that you can defeat them and turn the card over. The first player to turn over all the cards WINS! There are various action symbols on the playing field, each of which entails different actions. They allow players to roll the dice again, fall backwards on the board or take tokens from Helm's Deep. The markers collected must match the symbols on the battle cards. These can then be turned over to get a little closer to victory.
