from **153,66 EUR**

Item no.: 370994  
shipping weight: 3.00 kg  
Manufacturer: TAMIYA

### Product Description

The Mercedes Actros is an addition to the TAMIYA 1/14 race truck line. The original was entered in the ETRC in 2019 and finished fourth at the end of the season. The 1/10th scale kit model has a detailed, lightweight and impact-resistant polycarbonate body (multi-part). It is powered by a TAMIYA TT-01 Type E on-road chassis (electric) with all-wheel drive and independent suspension. A large selection of tuning parts allows the model to be upgraded to a racing machine and is in no way inferior to the original. **WARNINGS:** You should read and understand all instructions before starting assembly. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads.

Details- Scale: 1:14- Age recommendation: from 14 years Technical data- Length: 441 mm- Width: 188 mm- Height: 188 mm- Wheelbase: 257 mm Special features- 3-piece truck polycarbonate body- Side mirrors- Equipped with brackets for 5mm LEDs (LED light unit sold separately)- Rear bumper attached to the chassis- Special truck wheels and profiled truck rims wheels and profiled truck tyres- TT-01E chassis with all-wheel drive- Electronic speed controller- TAMIYA torque-tuned motor included- Numerous tuning parts available Contents- Kit model (4WD)- TT-01E chassis- Elect.
