### Product Description

Warhammer - Fantasy RPG, game leader screen (DE)

Just as impressive and robust as Altdorf's reliable protective walls, the game master's screen for the Warhammer fantasy role-playing game offers practical summaries of important rules of the game as well as a selection of essential tools for game masters. With a breathtaking illustration of the festering cities of the Old World on the one hand and important tables, references and rules on the other, the game master's screen is an ideal tool to hide all your shameful plans from the prying eyes of your players.

The umbrella is accompanied by the game master's manual, a 32-page brochure with practical tips, clever tricks and optional rules as well as indispensable articles. The game master's manual and game master's screen will expand your campaigns in new, innovative and exciting directions.

The game master's screen and the game master's manual contain:

- a four-sided screen with general rules, tables and resources for non-player characters
- Game master's advice on atmosphere, playing techniques and larger challenges and more intense immersion of the players
- advanced advice on key elements of Warhammer, including combat, perks, and motivations
- optional rules to facilitate large fights
- a multitude of new random tables, including prophecies of doom, motivations, adventure hooks and much more!

The Warhammer game master's screen is an essential addition to any game master's arsenal.

Warning! Not suitable for children under 36 months.
