from **26,51 EUR**

Item no.: 370074
shipping weight: 0.50 kg
Manufacturer: ITALERI

Product Description

The M4 Sherman medium tank was the main tank used by the United States during the Second World War. It was produced in a significant number of units and formed the backbone of the United States armoured forces at the time. It was produced in several variants and versions. The first version to be produced on a large scale was the Sherman M4A1, characterised by the rounded edges of the fully cast upper hull. Even the turret had a rounded appearance. The main strength of the tank, however, was its design. The Sherman was reliable, cheap and easy to produce in large numbers. The M4A2 version was similar to the previous one, but was diesel-powered with General Motors Twin G-41 engine. Initially, the M4A2 was dedicated to supporting the wartime activities of allied nations such as the Soviet Union and Great Britain, but many tanks were used by the United States Marine Corps. They were actively used in the battles to recapture the archipelagos of the Pacific Ocean and played a fundamental role in destroying the powerful fortifications built by the Japanese army.

Details- Scale: 1:35- Age recommendation: from 14 years Technical data- Length: 168 mm Contents- Kit- Instructions- Decoration Information- The high-quality kit from Italeri must be assembled by the customer.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the scope of delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included with the plastic kit.
