

Item no.: 370658

500907182 - Model kit, 1:14 scale drawbar with drawbar RC/Mech.

from **43,09 EUR**

Item no.: 370658
shipping weight: 3.00 kg
Manufacturer: Carson

Product Description

This towing muzzle can be used with all CARSON trailers on a scale of 1:14. The locking mechanism can be controlled either mechanically or via a remote control system. If the towing jaw is operated manually, a strong counter-pressure spring ensures that the locking bolt does not open accidentally and allows the trailer to drive autonomously over the course. On the following TAMIYA trucks MB Arocs rear tipper (300056357) and Volvo FH16 timber transporter (300056360), the drawbar can already be attached to the frame crossbar included in the kit. Caution! Not suitable for children under 3 years. Choking hazard due to small parts.

Details- Scale: 1:14- Recommended age: from 14 years Contents- Drawbar- Drawbar- Assembly material Matching trailer models 500907400 1:14 Goldhofer TU4 low loader trailer 4A.500907425 1:14 2 axle tipper centre trailer 500907622 1:14 2 axle stake trailer Riedler Suitable for the following TAMIYA tractors 300056357 1:14 RC MB Arocs 3348 rear tipper 3 axle 300056360 1:14 RC Volvo FH16 timber transporter 300056307 1:14 RC Mercedes-Benz 1850L Overnight Express** The crossbar 500907185 is required to mount the drawbar, this is also the mount for the rear bumper/underride guard.
