from **48,49 EUR**

Item no.: 366221  
shipping weight: 0.90 kg  
Manufacturer: Revell

### Product Description

Are you an aircraft enthusiast looking for a model kit that reflects your passion for the legendary fighter planes from the film "Top Gun"? Then the Top Gun 2 Movie Set is just the thing for you! The set includes detailed model kits of the F-14D Super Tomcat and F/A-18E Super Hornet in 1:72 scale.

Whether you are an experienced modeller or a beginner, with this set you can improve your craft skills and build your own "Top Gun" fleet. The models are ideal for aircraft enthusiasts, collectors and anyone who enjoys creating things with their own hands.

The Super Tomcat was flown by Pete "Maverick" Mitchell in the first "Top Gun" film, while the Super Hornet is the focus of the new sequel "Top Gun: Maverick". With detailed cockpits, various external loads such as tanks and guided missiles, and detailed landing gear, you can realistically recreate your favourite aircraft from the film. The included decals with decals from both movies complete the authentic flying experience.

Features of the Top Gun 2 Movie Set:

- Realistic models of the F-14D Super Tomcat and F/A-18E Super Hornet
- Detailed cockpits and landing gear
- Various external loads such as tanks and guided missiles
- Decals with decals from both "Top Gun" films
- Includes everything you need to build the models (paints, brushes, glue etc.)

Background information: The "Top Gun" franchise has achieved cult status since its release in 1986. The story follows a group of young naval aviators who attend the United States Navy Fighter Weapons School to become the best fighter pilots in the world. The film was praised for its spectacular aerial photography and its portrayal of the jet-setting lifestyle of the pilots. The sequel, Top Gun: Maverick, was released in 2021 and captures the legacy of the original film while introducing new characters and an updated storyline.
