from **17,47 EUR**

Item no.: 365483
shipping weight: 0.80 kg
Manufacturer: Revell

Product Description

Baron Manfred Freiherr von Richthofen and his red Fokker triplane made history in World War 1. The Fokker Dr. I was introduced to the Western Front in June 1917 and only gained clearance from the General Staff after a lengthy test phase and the approval of flying ace Manfred von Richthofen. The Dr. I was the most manoeuvrable of all the aircraft used and achieved high climb speeds. With the Oberusel radial engine (110 hp), the Dr. I reached a top speed of 193 km/h and could climb to 3000 m in 6 minutes. Two Spandau-MG's were installed in front of the pilot's cockpit. At the end of 1917, the Dr. I was withdrawn from the Western Front, but the Red Baron continued to fly this type and achieved a total of 80 kills before it was shot down in April 1918.

Caution. Not suitable for children under 36 months. Legal minimum age: 10 years

- Detailed radial engine
- Movable propeller
- Detailed cockpit with control stick, seat and control pedals
- Textured wings
