Product Description

The 71 Mustang Boss 351 1:25 scale model kit is a detailed recreation of one of the most legendary American muscle cars. This plastic model kit offers a perfect way to experience the thrill and beauty of classic American cars.

This model offers a variety of features that make it a rewarding and challenging crafting experience. The multi-piece V8 engine and movable bonnet allow the modeller to view a detailed interior view of the engine. Various chrome parts such as the grille and bumpers give the model an authentic look. Features:

- Scale: 1:25 realistic proportions and precise details
- Number of parts: 120 not too complex, but still a challenge
- V8 engine detailed reproduction of the engine
- Late model 1st generation Mustang authentic look
 Movable bonnet allows detailed interior view of the engine

- Various chrome parts give the model an authentic look
 Decal with various number plates allows for customisation
 Illustrated, multilingual assembly instructions and decals easy assembly and realistic look

Background informationThe Mustang Boss 351 is a well-known American muscle car that first came onto the market in 1971. This model was the late version of the 1st generation Mustang and was distinguished by its powerful 5.8 litre Cleveland engine. With this model kit, modellers can build a detailed replica of the vehicle and showcase it in their collection. Assembling the model requires some model building experience, making it an ideal challenge for experienced modellers. With a length of 192 mm, a width of 76 mm and a height of 54 mm, this model is an impressive piece that will stand out in any collection.

Caution. Not suitable for children under 36 months.

- Scale:1:25
